According to Internal Revenue Service (IRS) Revenue Ruling 59-60, Fair Market Value is defined as, "the price at which the property would change hands between a willing buyer and a willing seller when the former is not under any compulsion to buy and the latter is not under any compulsion to sell, both parties having reasonable knowledge of relevant facts."

EY's Valuation Report is not a fairness opinion or investment advice. Client will not rely on any of them as such, nor will Client use them, or permit them to be used, as the basis to set a transaction price. EY assumes no responsibility to any buyer or seller to negotiate a purchase or sale at the value set forth in the Report.

The Valuation Report is subject to EY's Statement of Limiting Conditions ("SLC"), a draft of which is attached hereto as Appendix 2. If EY concludes that modifications or additions to the SLC will be required, EY will notify Client.

Limitations on scope

The Valuation Services under this SOW do not include the valuation of any assets, liabilities or interests not listed in the Scope section. If EY discovers significant amounts of such property, Client will either (1) engage EY to perform a separate valuation of these items (subject to the Agreement as to scope and fees) or (2) represent to EY the value of those items, on which EY would rely without further investigation for EY's use in performing the services under this SOW.

EY will not, in connection with the performance of the Valuation Services or otherwise, (i) act as a broker for the sale of any securities, (ii) solicit any potential buyer or seller (including Client) to engage in any transaction, or (iii) act as a negotiator of a transaction.

The fact that EY prepares Client's accounting information does not signify that EY expresses any opinion on the financial position or results of the foreign entities in the countries in scope. EY will not make any payments or disbursements on behalf of Client as part of these Services and will not serve in any form as management.

EY will not render an assurance report or assurance opinion under the Agreement, nor will the Services constitute an audit, review, examination, or other form of attestation as those terms are defined by the American Institute of Certified Public Accountants. Appendix 2 - Statement of Limiting Conditions

1. Nothing has come to EY's attention to cause EY to conclude that the facts and data set forth in this Valuation Report are not correct.
2. No investigation of the title to the subject company and subject assets has been made, and the owner's claim to the subject company and subject assets is assumed to be valid. To the extent that Ernst & Young LLP's services include any analysis of assets, properties or business interests, Ernst & Young LLP assumes no responsibility for matters of legal description or title, and Ernst & Young LLP shall be entitled to make the following assumptions: (i) title is good and marketable, (ii) there exist no liens or encumbrances, (iii) there is full compliance with all applicable regulations and laws, and (iv) all required licenses, certificates of occupancy, consents, or legislative or administrative authority have been or can be obtained or renewed for any use on which Ernst & Young LLP services are to be based.

Where real estate is included in EY's analysis, Ernst & Young LLP shall not assume any responsibility for identifying structural conditions of property. No analysis will be made of the subsurface or the hazardous waste conditions, if any. EY's services shall not take into consideration the possibility of the existence of toxic substances, hazardous or contaminated conditions, or underground storage tanks, nor the costs associated with remediating such substances or conditions. Ernst & Young LLP is not qualified to detect, and shall not be responsible for detecting, such substance or conditions.

3. This Valuation Report has been prepared solely for the purpose stated and may not be used for any other purpose. Neither this Valuation Report nor any portions hereof may be copied or disseminated through advertising, public relations, news, sales, Securities and Exchange Commission disclosure documents or any other public (or private) media without the express prior written approval of Ernst & Young LLP.

Notwithstanding anything contained herein to the contrary, the Client and its officers, directors, employees, representatives, agents and advisers may freely disclose to any and all persons (without limitation) any tax advice, including the tax treatment and tax structure of any transaction, provided to the Client by Ernst & Young LLP, together with all facts that may be relevant to understanding the proposed tax treatment of any transaction and any materials provided by Ernst & Young LLP related to such tax treatment and tax structure. In any event, because all such tax advice is provided

solely for the benefit of the Client, the Client shall inform those to whom it discloses such information that they may not rely upon such tax advice for any purpose without the prior written consent of Ernst & Young LLP.

Based on EY's valuation analysis, assumptions and methodologies employed as described, and consistent with the inherent estimation uncertainty as of the Valuation Date, it is EY's view that the fair market value opinion as represented in this Valuation Report will more likely than not be sustained if challenged on the merits.

4. The recommendations, opinions, or calculations of values contained herein are not intended to represent the values of the subject company, assets, or interests at any time other than the effective date that is specifically stated in this Valuation Report. Changes in market conditions could result in values substantially different than those presented at the stated effective date. EY assumes no responsibility for changes in market conditions or for the inability of the owner to locate a purchaser of the subject company, assets or interests at the values stated herein.

With respect to EY's analysis, EY's work did not include an analysis of the potential impact of any unexpected sharp rise or decline in local or general financial market or economic conditions or technological changes.

5. No responsibility is assumed for information furnished by others, including management, and such information is concluded to be reliable.

In the course of EY's analysis, EY was provided with written information, oral information, and/or data in electronic form, related to the structure, operation, and financial performance of the subject company / assets / interests. EY has relied upon this information in EY's analyses and in the preparation of this Valuation Report and have not independently verified its accuracy or completeness.

6. Certain historical financial data used in EY's valuation were derived from audited and/or unaudited financial statements and are the responsibility of management. The financial statements may include disclosures required by generally accepted accounting principles. EY has not independently verified the accuracy or completeness of this data provided and do not express an opinion or offer any form of assurance regarding its accuracy or completeness.

7. The estimates of cash flow data included herein are solely for use in the valuation analysis and are

not intended for use as forecasts or projections of future operations. EY has not performed an examination or compilation, nor has EY performed an agreed-upon procedures engagement regarding the accompanying cash flow data in accordance with standards prescribed by the American Institute of Certified Public Accountants, and, accordingly, do not express an opinion or offer any form of assurance on the accompanying cash flow data or their underlying assumptions. Furthermore, there will usually be differences between estimated and actual results because events and circumstances frequently do not occur as expected, and those differences may be significant.

8. EY assumes no responsibility for any financial and tax reporting judgments, which are appropriately those of management. It is EY's understanding that management accepts responsibility for any financial statement and tax reporting issues with respect to the subject company / assets / interests covered by EY's analysis, and for the ultimate use of EY's Valuation Report.
9. Ernst & Young LLP is not required to furnish additional work or services, or to give testimony, or be in attendance in court with reference to the company / assets, interests in question or to update any Valuation Report, recommendation, opinion, calculation, analysis, conclusion, or other document relating to its services for any events or circumstances unless arrangements acceptable to Ernst & Young LLP have been separately agreed with the Company.
10. This Valuation Report does not comprise a Comprehensive Written Business Valuation Report as described in BVS-VIII, by the Business Valuation Committee of the American Society of Appraisers (ASA) and approved by the ASA Board of Governors. Certain sections may have been omitted from this Valuation Report. Where applicable, the data underlying these sections will be retained in EY's working papers.

Disclosure of the contents of this Valuation Report may be governed by the Bylaws and Regulations of the Appraisal Institute and the Uniform Standards of Professional Appraisal Practice of the Appraisal Foundation. Possession of this Valuation Report or a copy thereof, or any part thereof, does not carry with it the right of publication, nor may it be used by anyone but the party for whom it has been prepared without the prior written consent and approval of Ernst & Young LLP.
